That's great Vlastimila! We shall expect you and your colleague on November 20, 2012 from 2:00 pm - 4:00 pm. This should give you plenty of time to drive from Williamsport to Philadelphia and check into your hotel. Thank you for sending your detailed questions as well. We look forward to seeing you then.

Best regards, Francesca

Dear Francesca,
thanks for your email.

Yes, to answer your question the EPA visit is now on agenda for Nov.20 and DEP is expecting us in Harrisburg on Nov. 21st. They agreed to switch the dates with you.

So, we will appreciate if you can schedule the meetings with your colleagues for Nov.20th in Philadelphia. Regarding agenda enclosed is a list of our questions and discussion we expect to have with various people including EPA, DEP, drilling and production company (Cabot, Shell). Feel free to pick up the topics relevant to your or your colleagues expertise. Of course we are familiar with some of your previous reports and web information, but wish to learn more about some projection, progress and/or relevant studies done in this particular area. Would be nice as well if you will consider the time for the meeting. On Nov. 20 we are driving from Williamsport being in the field with DEP and Shell people day before. We do not have any other meeting on our agenda when in Philadelphia on Nov. 20 so we are quite flexible in this regard and we will stay in Philadelphia that night. We are taking a train going to Harrisburg to meet DEP folks on Nov. 21st coming back for a night and flight over home the next morning.

I do have the details already from you how to find EPA office and procedures to go through.

Looking forward to hear from you again.

Vlasta
